v. Interest free (Grace Period):

Please remember that this facility for an interest-free period will not be available to you if you have not paid the previous month's outstanding amount in entirety.

- The grace period could range from 20 to 50 days.
- Illustrative Example for the calculation of grace period:

An interest free period will not be available if you have not paid the previous month's outstanding amount in entirety. Interest free period from the start of the billing cycle date shall not exceed 45 Days. Payment Due Date on your Card is 15 days after the Statement Date (Please check your statement for your exact Payment Due Date). Therefore, free credit period can range up to 48 days depending on your Payment Due Date which includes 3 days of grace period.

For a purchase dated 19th Feb 2020 the interest-free grace period is from 19th Feb 2020 to 11th March 2020 i.e., 21 days

Thus, the grace period can vary depending upon the date of purchase. However, if the Total Amount Due is not paid by the payment due date, then there will be no interest free period. For cash advances, interest is charged from the date of the transaction until the date of payment.

**** Interest Free Period:** Please remember that this facility of an interest-free period will not be available to you if you have not paid the previous month's outstanding amount in entirety.

- vi. **Charges in case of default / Late Payment Fee:** Late Payment charges will be levied in case a credit card account (statement outstanding balance) on customer remains "past due" for more than 3 days. The number of "days past due" and late payment charges will be computed from the payment due date. You are charged a Late Payment Fee if there has been no payment or a payment less than the Minimum Amount Due is received by the Payment Due Date +3 days. Late Payment Fee shall be charged on the outstanding amount.

Illustrative Example for Calculation of Late Payment Charges

Payment of at least the Minimum Amount Due i.e., Rs. 250 in the above example, is required to be paid by the payment due date (9th Feb 2020), to ensure that no late payment charges are levied. If minimum amount due is not paid, late payment charges would be levied as per the below:

Interest calculations @ 2.5% of the
Total Outstanding Amount or INR 200
(whichever is higher)

Thus, in the above example, since the minimum amount due of ₹250 is not paid by the payment due date of 9th Feb 2020 and since Total Amount Due was ₹5000, late payment charges of ₹200 will be levied on 10th Feb 2020. This charge will also be applicable if you make a payment of less than the minimum amount due by the

payment due date.

GST will be applicable on late payment charges.

vii. Auto-debit:

If a customer has registered for auto debit facility towards Credit Card repayment and has selected Minimum Amount Due option, then the same will be executed on the due date provided no amount is paid by the customer before the due date. If a customer has paid an amount less than Minimum Amount Due before the due date, then a differential amount would be debited. If the customer has paid an amount which is equal to or more than Minimum Amount Due before the due date, then no additional amount will be debited from customer's liability account.
